

## Company Profile

### About Us

TeleZone Information Technology is established as Limited Liability Company under registration and commercial license from Dubai Economic Department. **TeleZone** is a member of Sultan Al Ali Group of Companies under chairmanship of Sultan Obaid Al Ali. It is wholly operated by highly experienced telecommunication and IT professionals. Jurisdiction of company activity is the geographical limits of UAE.

In this era, if business is to remain competitive, Information & Communication Technology solution that can change rapidly with you is a must. That is where **TeleZone** Information Technology L.L.C. comes into the scenario. We understand that, not everybody is so inclined or has the time or resources to work on their Voice & Data Network system. At **TeleZone**, we have the skills to engineer, install, service, and manage Voice & Data networks for your business.

We offer specific solutions for Unified Communications, Access Control & Security Equipment, Office Communication Equipment, and Voice/Data Networking Equipment, Computer hardware and software. To accommodate all your communication needs, **TeleZone** also offers nationwide technical services for any and all of your needs like administration, remote support, moves, changes, additions, cabling or any other related services.

### Vision

Be part of Electronics, Communication & IT industry in the region and service the business needs.

### Mission

Provide a complete sustainable ICT solution to Small, Medium and Large business at an affordable price.

## Small to Medium Business

We offer complete customizable and scalable communications solutions for small to mid-size businesses that are reliable, affordable and flexible, allowing you to be more responsive to your customers, to stay better connected to remote and mobile colleagues, and to quickly and effectively adapt to changes and challenges in the marketplace.

## Large Business Needs

Often large business operates in multiple locations with significant numbers of flexible and mobile workers. We offer inter-site networking solutions. The key is that the employees need will be able to communicate efficiently and effectively, irrespective of their location and job function. The experienced team at **TeleZone** will take time to understand your business and provide practical advice on how the communication solutions we offer can complement your business and increase productivity.
